What is PAES®? PAES® IS A HANDS-ON ASSESSMENT OF EMPLOYMENT POTENTIAL

Expose your students to a broad range of hands-on, generalizable work skills. They'll be better prepared for work experiences, future employment, work skills training and independent life! During PAES®, Students become PAES® Employees, and Teachers, Aides and Instructors become the PAES® Job Supervisors.

PAES® Employees clock in and go to work exploring nearly 300 jobs in five work areas. The PAES® hands-on jobs are generalizable entry level work skills. PAES® employees find out what job skills they are good at, and what job skills they like to do. This is an excellent help with transitioning to work and independent life.

PAES® is accessible for ALL students in Special Education: Middle School, High School and Adult Transition Programs. Also, PAES® for disabled adults and students in General Education during later Elementary and Middle School.

Convert your classroom or space to a Workplace with PAES®

PAES® comes with everything you need to set up a work exploration lab at your school or site. This includes a certified PAES® trainer at your location to set up your lab and conduct an in-service training. You also receive access to PAES® video training series for re-trains or new staff working in your lab.

The goal of PAES® is to determine what a student can do on their own with as little help as possible.

PAES® encourages workplace independence and motivates students to achieve more. Suiting a wide range of ages and abilities, PAES® is customizable to a student's level of need.

PAES® Meets a Variety of Public Mandates and Funding Programs

PAES® Facilitates transition planning and job placement. The comprehensive report is very useful for developing Career Development Plans, School-To-Work Plans, IEPs (Individualized Education Program) and Transition Plans.
