

Ideas for Stand-Up Work Tables

For Your Lab or Classroom — Order on Your Own

These ideas are provided by WorkLifeReady.com

Depending on what you currently have available for work tables, countertops, and storage cabinets, you may find that you want to order **counter-height work tables** for your lab.

One option is to order **packing tables** from ULINE.

Order Directly Through ULINE

60" x 30" Composite Wood Top Packing Table – ULINE

Starting at \$330, these tables are inexpensive and come with a **built-in storage shelf underneath**. You can also order **under-counter mounted drawers** for additional storage.

Always check with ULINE for current pricing:

The tables can be ordered with **standard composite wood tops**, or you can upgrade to **laminated, steel, or other surfaces** depending on how the table will be used. These surfaces work well for **Business and**

Counter-Height Work Tables

- Order composite wood top or consider other top options
- Optional drawers or wheels
- Can be used for cash register, mail sorting, & many other jobs

Counter-Height Food Prep Work Tables

- Order **laminated or stainless steel top**
- Optional drawers or wheels
- Can be used for **food preparation**

ULINE TABLE **TOP** OPTIONS

Note: The composite wood edges are rough. There are a few steps you can take to remove the rough edges from your composite wood packing table tops. Or, consider other top options.

Start with light sanding using 120-150 COMPOSITE WOOD grit sandpaper to remove rough edges. After it's fairly smooth, use 800 grit sandpaper until very smooth. Coat with high quality polyurethane, matte finish lacquer (Minwax) using a brushed application.

Please contact ULINE Customer Service Department at 1-800-295-5510 if you have any questions.

Also consider Adjustable Work Table

For Business, Computer, and also for Students with Wheelchairs

Install wood and metal vises to your Work Bench

Often times building maintenance staff will install these for you.

Want to repurpose or budget does not allow - Get Creative

Another idea for work tables was submitted by Crystal Schroeder Caledonia, MN

Our 2 labs had to get creative and reuse/ repurpose a lot of tables instead of buying them new when we started. Here are some photos of how our incredible maintenance man made it work! We reused and elevated an old conference/ board room table, a few computer tables, and even located some stainless steel work cabinets that weren't being utilized. The last 2 pictures are other ways we dealt with a money shortage. We found a salvaged countertop piece and had a local Craftsman build us a long table to fit 2 students side-by-side. He donated his labor and that helped keep it costs down. Lastly, we got a grant from Harbor Freight for 2 workbenches (I'd highly recommend it!), along with a few extra tools.
