

The background of the entire slide is a blue-tinted photograph of a classroom. In the foreground, a student is seated at a desk, looking down at a tablet. Behind them, another student is standing and looking at a book. In the background, a teacher is visible, and there are bookshelves filled with books.

## PAES® Practical Assessment Exploration System

### Performance Summary

Shanna Two      Student ID: 0      Birth Date:

School: Miller Lab      Evaluator: Theresa      Grade:

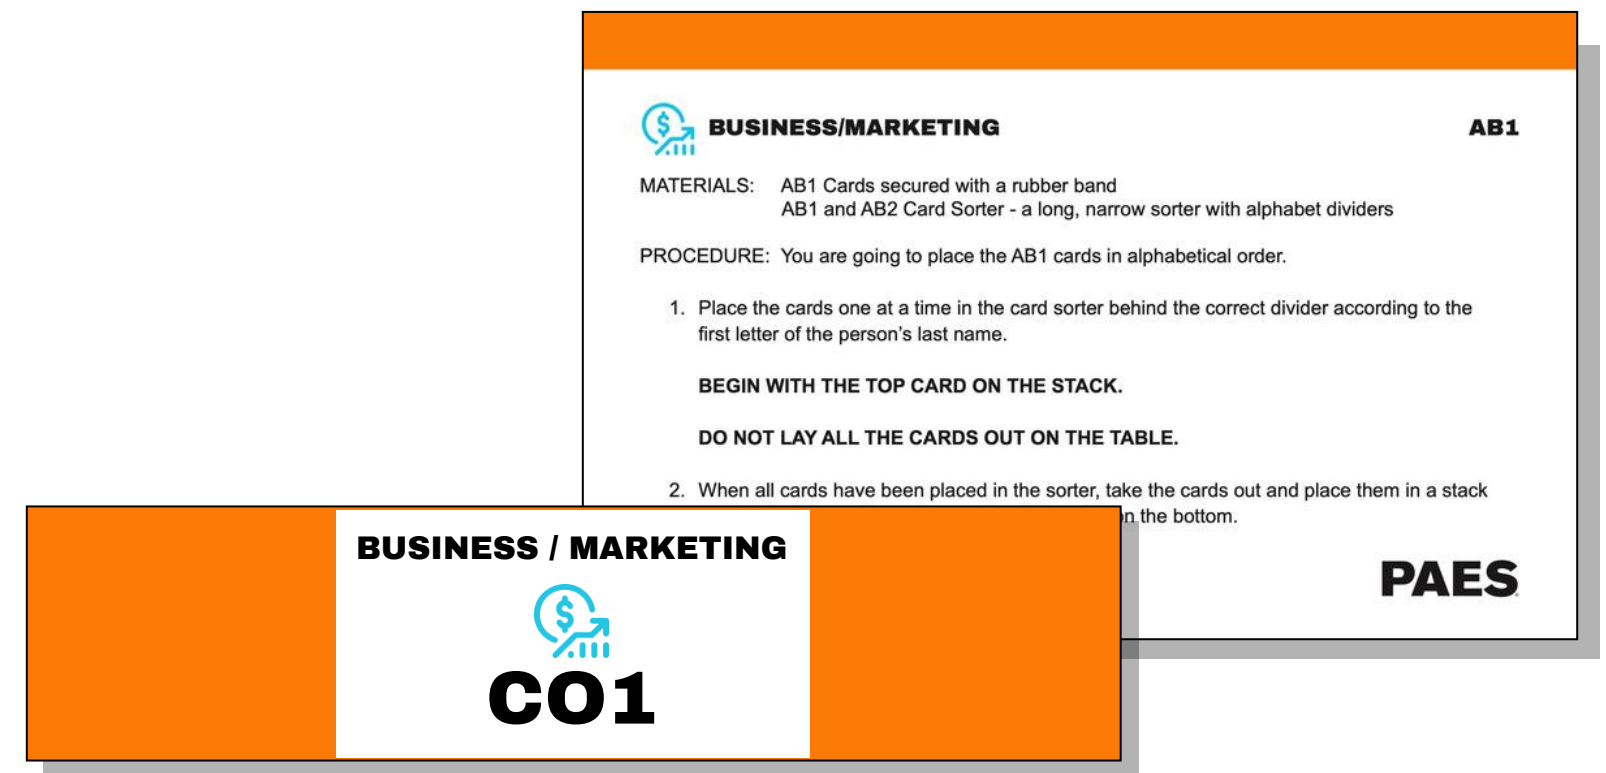

Notes:

| QUANTITY of Work Completed:                  |      |
|----------------------------------------------|------|
| TOTAL Number of Jobs Attempted:              | 122  |
| TOTAL Number of Jobs Performed Successfully: | 109  |
| Attendance - Hours present for PAES:         | 110  |
| Amount of Production Standard Met:           | 40 % |

| APTITUDE: | Number of Jobs |
|-----------|----------------|
|           |                |

# NEW CHARTS, JOB CARDS & INSTRUCTION CARDS

- New Modern Component Poster Design plus an additional PAES Lab Sign, and Component Area Posters
- New Job Cards & Instruction Cards printed on restaurant-grade never-tear paper for durability.
- New Equipment Manuals
- Re-designed labels for job boxes and other items

# IMPROVED ITEMS

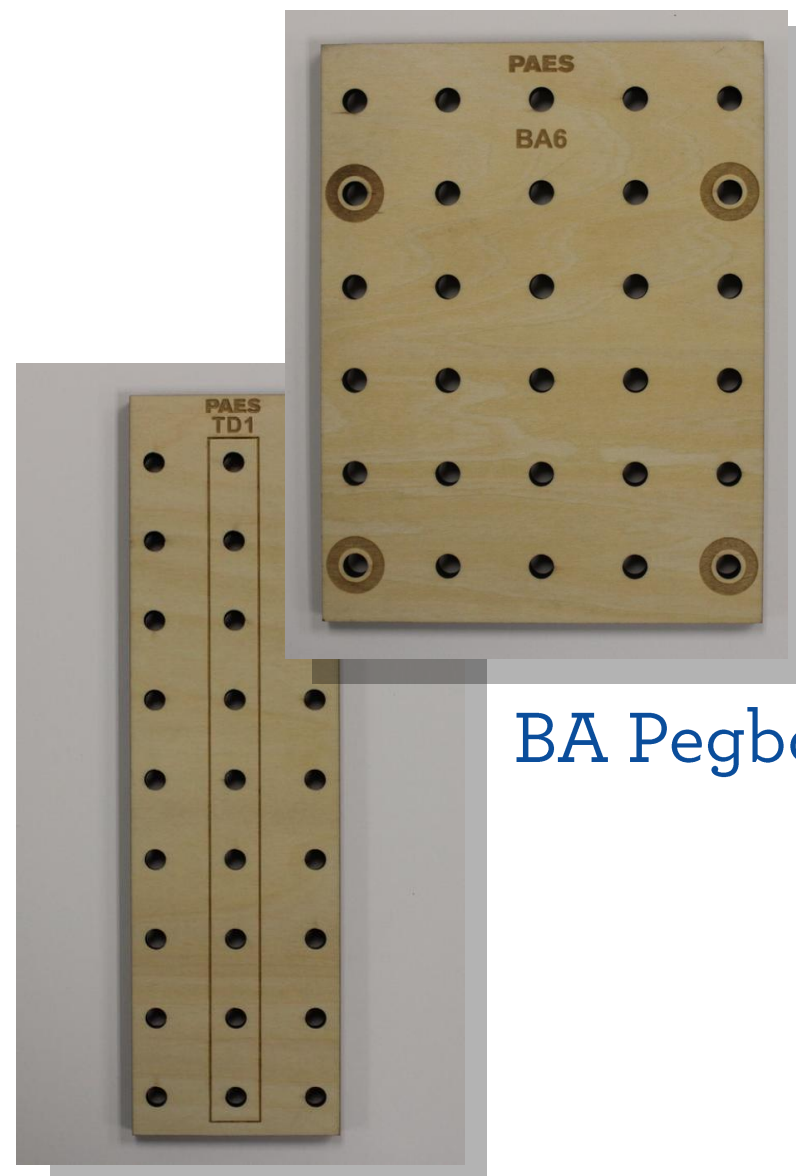

- Homemade custom items have been replaced with **custom, quality sourced replacements**
- **Professional** model goods and materials in construction and consumer components
- High-quality equipment upgrades:
  - Singer Heavy Duty **Sewing Machine**
  - Pre-seasoned **Electric Grill**

# IMPROVED ITEMS

SM Plates & Blocks Sets

TD Pegboard

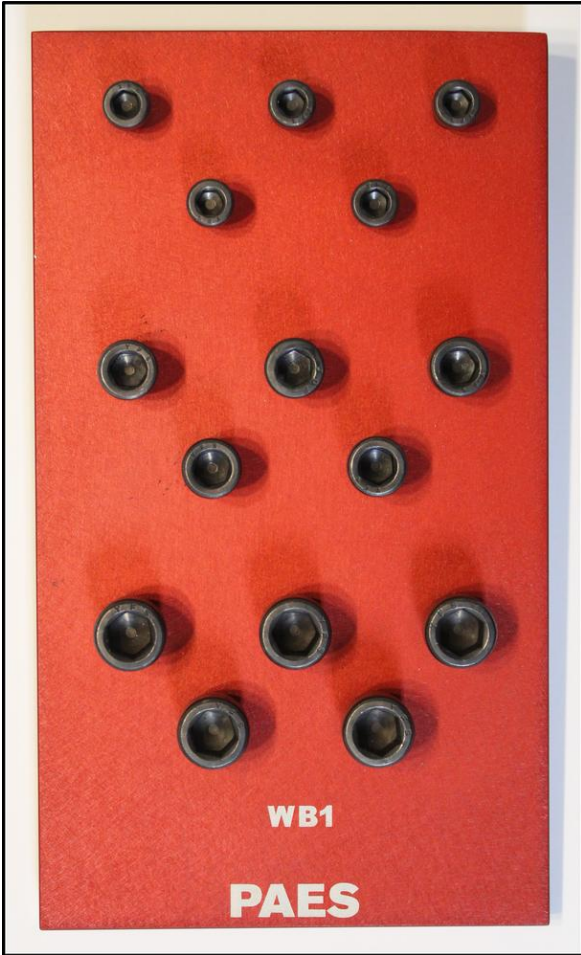

BA Pegboards

SS6 Shapes

Wooden cut outs replace the previous laminated paper shapes for tracing

# IMPROVED ITEMS

WB Unit

SN Unit

# NEW EQUIPMENT

Multiple containers included in shipment for small items in job boxes. (i.e. needles and pins)

MC/ CR Change Box

Digital Produce Scale w/ Tray

Electric Grill

Booklet Stapler

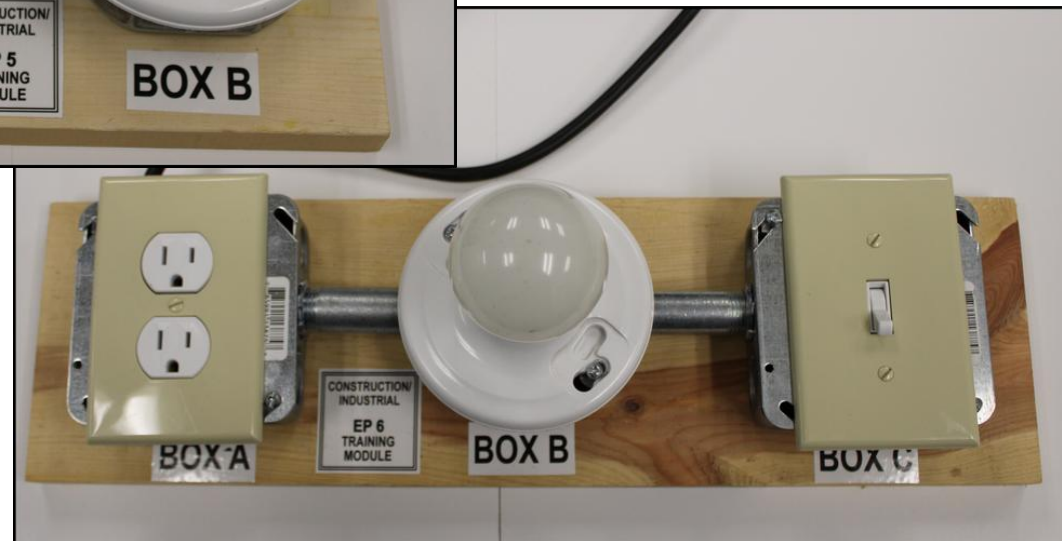

Spin Mop System

Induction Cooker

# NEW EQUIPMENT

EP jobs have been updated to match a typical drywall construction job. There is a bigger area to work with and the use of mud rings better simulates a real-world scenario.

A sheetrock saw was added to accommodate working with drywall instead of plastic and facilitates assessing and broadening the PAES Employee's sawing skills

3 Labeled Tool Chests for Construction Tools

MP jobs have been updated to match modern plumbing jobs. A 90-degree copper elbow has replaced the tubing bender and is a quick connection to work with a variety of plumbing materials in the real world.

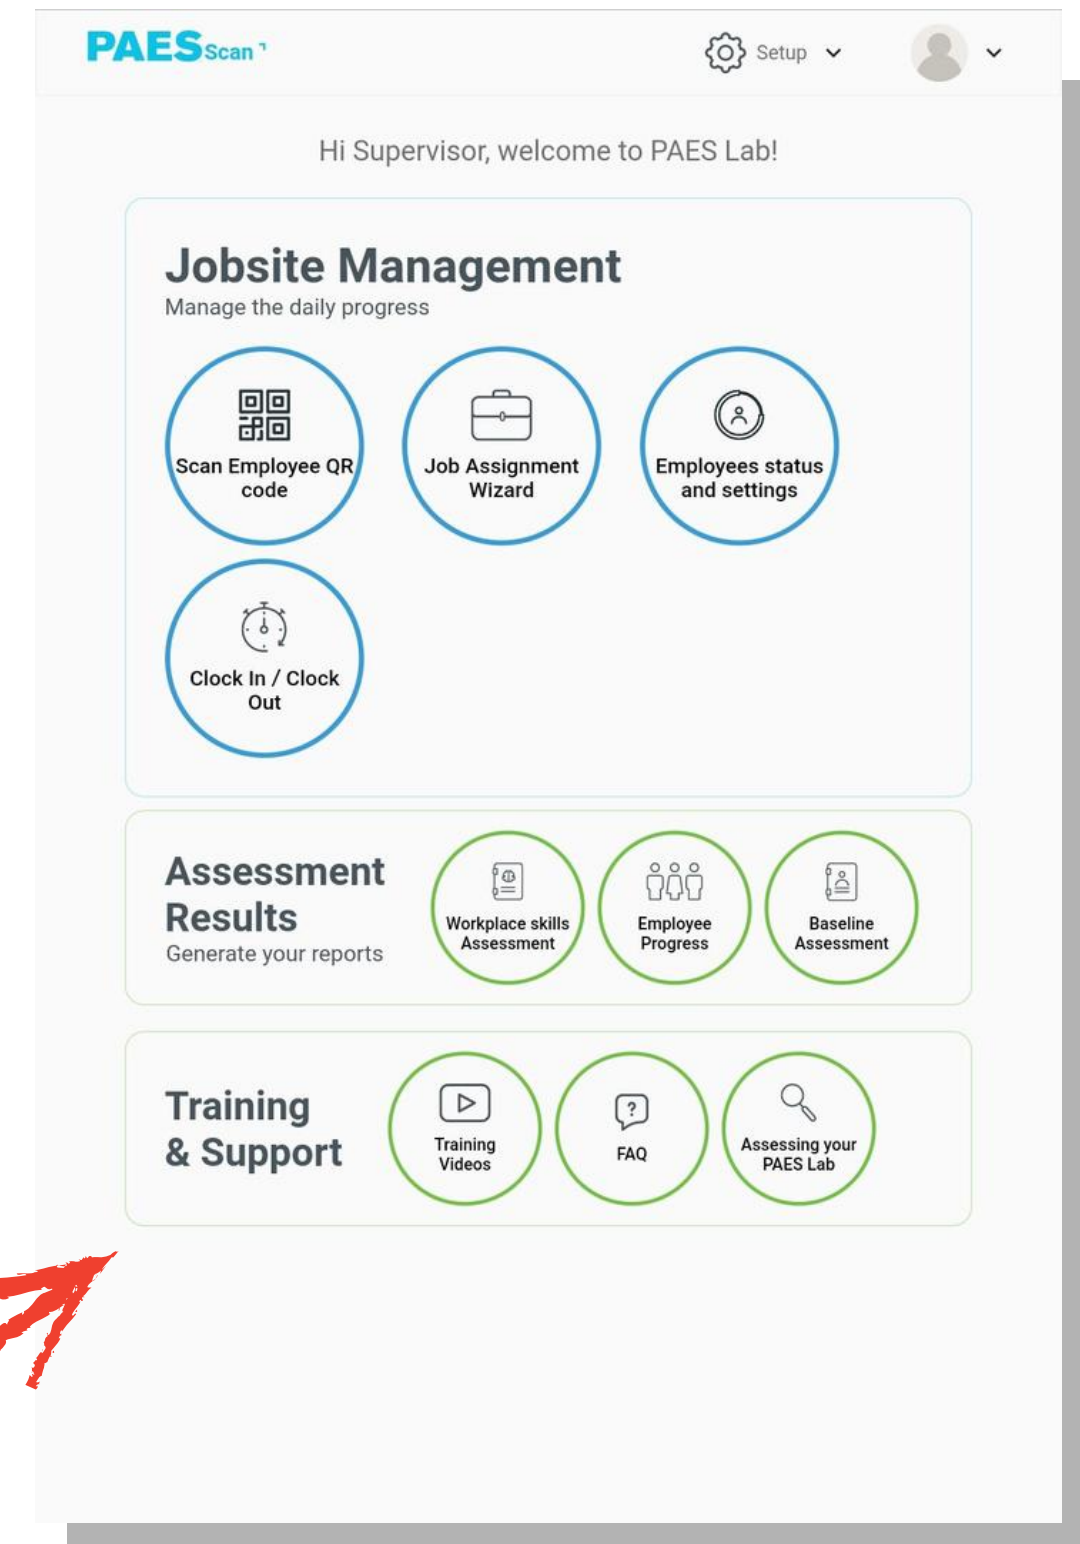

**PAES**<sup>®</sup> PRACTICAL  
ASSESSMENT  
EXPLORATION  
SYSTEM

**PAES SCAN**

*Digital Lab Management & Scoring*

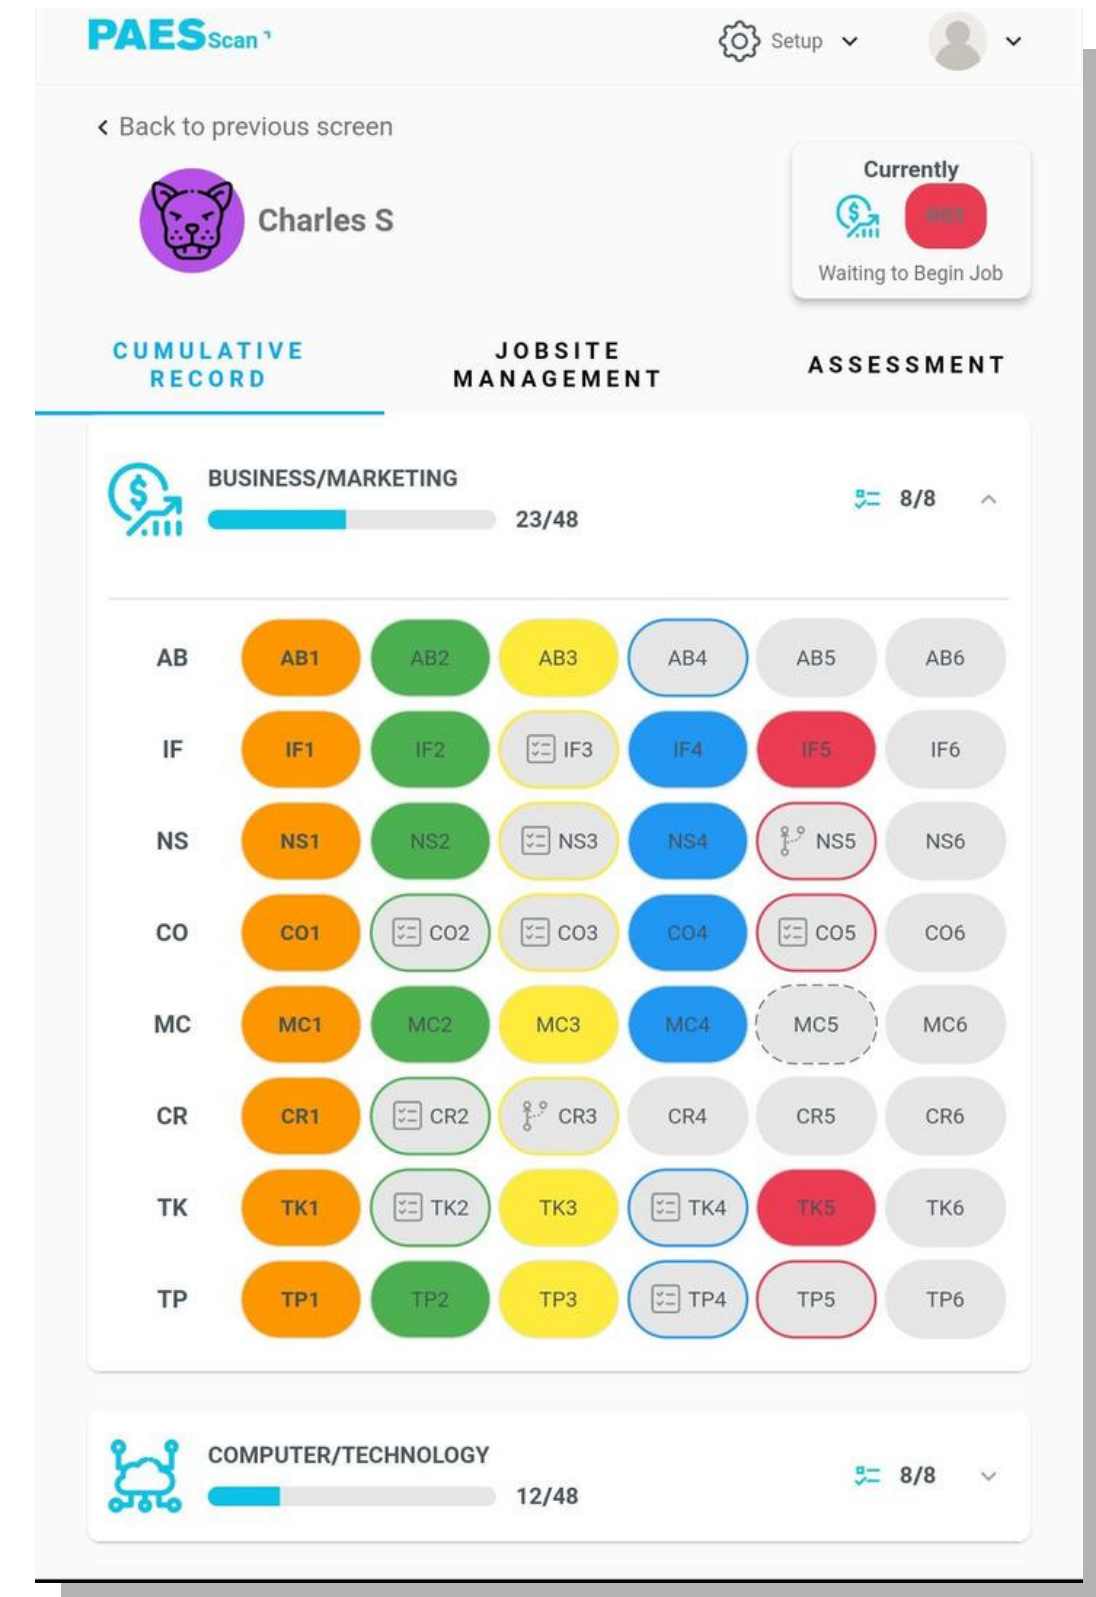

# PAES SCAN

- Mobile & Web-based application created to **save time, increase accuracy, and improve efficiency**
- **Paperless** management and scoring
- Supervisors now have a **comprehensive** solution to their lab management system:
  - Real Time Scoring
  - **New** reports
  - **Interactive** employee progress screen
  - Employee QR codes for **quicker navigation**, protected personal data, and **unique** clock-in/clock-out features

# PAES SCAN CONT.

- No more need for **QRGs, flash drives, and downloading computer software** to a supervisor's computer
- Manual and complex actions are **now automated** (clocking-in & out, navigating to the Subtask Assessment, Optional Scoring support, and more)
- **Simplified Training:** brand new training videos accessible via the tablet and web, easy to reference at all times

# TABLET VS. WEB CAPABILITIES

| Tablet                                                                                                                                                                                                                                                                                                                                                                                                             | Web                                                                                                                                                                                                                                     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none"><li>• No more guesswork in how to score.
